PRIVATE SPONSOR TRAVEL CERTIFICATION FORM

This form must be completed by any private entity offering to provide travel or reimbursement for travel to Senate Members, officers, or employees (Senate Rule 35, clause 2). Each sponsor of a fact-finding trip must sign the completed form. The trip sponsor(s) must provide a copy of the completed form to each invited Senate traveler, who will then forward it to the Ethics Committee with any other required materials. The trip sponsor(s) should **NOT** submit the form directly to the Ethics Committee. Please consult the accompanying instructions for more detailed definitions and other key information.

The Senate Member, officer, or employee MUST also provide a copy of this form, along with the appropriate travel authorization and reimbursement form, to the Office of Public Records (OPR), Room 232 of the Hart Building, within thirty (30) days after the travel is completed.

1.	Sponsor(s) of the trip (please list all sponsors):
	Healthcare Information and Management Systems Society (HIMSS)
2.	Description of the trip: This is an educational experience to attend the HIMSS18 Annual Conference and
	Exhibition for education, innovation and collaboration on health information and technology.
3.	Dates of travel: March 4 - 7, 2018
4.	Place of travel: Las Vegas, NV
5.	Name and title of Senate invitees: Please see attached list of Senate invitee
6.	I certify that the trip fits one of the following categories: (A) The sponsor(s) are not registered lobbyists or agents of a foreign principal <u>and</u> do not retain or employ registered lobbyists or agents of a foreign principal <u>and</u> no lobbyist or agents of a foreign principal will accompany the Member, officer, or employee at any point throughout the trip.
	□ (B) The sponsor or sponsors are not registered lobbyists or agents of a foreign principal, but retain or employ one or more registered lobbyists or agents of a foreign principal and the trip meets the requirements of Senate Rule 35.2(a)(2)(A)(i) or (ii) (see question 9).
7.	I certify that the trip will not be financed in any part by a registered lobbyist or agent of a foreign principal. - AND -
	I certify that the sponsor or sponsors will not accept funds or in-kind contributions earmarked directly or indirectly for the purpose of financing this specific trip from a registered lobbyist or agent of a foreign principal or from a private entity that retains or employs one or more registered lobbyists or agents of a foreign principal.
8.	I certify that: The trip will not in any part be planned, organized, requested, or arranged by a registered lobbyist or agent of a foreign principal except for de minimis lobbyist involvement. - AND-
	The traveler will not be accompanied on the trip by a registered lobbyist or agent of a foreign principal except as provided for by Committee regulations relating to lobbyist accompaniment (see question 9).

9.	USE ONLY IF YOU CHECKED QUESTION 6(B) I certify that if the sponsor or sponsors retain or employ one or more registered lobbyists or agents of a foreign principal, one of the following scenarios applies:
	(A) The trip is for attendance or participation in a one-day event (exclusive of travel time and one overnight stay) and no registered lobbyists or agents of a foreign principal will accompany the Member, officer, or employee on any segment of the trip. - OR -
	(B) The trip is for attendance or participation in a one-day event (exclusive of travel time and two overnight stays) and no registered lobbyists or agents of a foreign principal will accompany the Member, officer, or employee on any segment of the trip (see questions 6 and 10). - OR -
	(C) The trip is being sponsored only by an organization or organizations designated under § 501(c)(3) of the Internal Revenue Code of 1986 and no registered lobbyists or agents of a foreign principal will accompany the Member, officer, or employee at any point throughout the trip.
10.	USE ONLY IF YOU CHECKED QUESTION 9(B) If the trip includes two overnight stays, please explain why the second night is practically required for Senate invitees to participate in the travel:
11.	An itinerary for the trip is attached to this form. I certify that the attached itinerary is a detailed (hourby-hour), complete, and final itinerary for the trip.
12.	Briefly describe the role of each sponsor in organizing and conducting the trip:
	HIMSS develops, organizes, and conducts all aspects of the trip and conference. HIMSS18 is the largest
	healthcare conference, bringing together thought leaders from across the healthcare community, including
	providers, IT experts, vendors, and local, federal and state government representatives.
13.	Briefly describe the stated mission of each sponsor and how the purpose of the trip relates to that mission: HIMSS is a global, caused-based not-for-profit focused on transforming health through information and
	technology. HIMSS provides thought leadership, community building, and professional development, and
	leads efforts to optimize health engagements and care outcomes using information and technology.
14.	
	Briefly describe each sponsor's prior history of sponsoring congressional trips:
	Briefly describe each sponsor's prior history of sponsoring congressional trips: HIMSS holds in Annual Conference every year, and invites congressional staff, as well as federal, state,

focused on relevant health policy issues. country. Total Expenses for Each Participant:	These events are both	n on and off Capitol Hill,	as well as across
Total Expenses for Each Participant:			
Transportatio	n Lodging Expenses	Meal Expenses	Other. Expenses
Good Faith estimate \$350 Actual Amounts	\$298	\$124 (Some meals covered in conference registration fee; no alcohol will be provided to Senate staffers)	\$795 (gov't rat conference registration fe waived) \$350 (pre-conference symposia fee waived)
ongressional participation: The trip is organized without regard to co	ongressional participation	DÀ.	
Reason for selecting the location of the e	vent or trip		
HIMSS Annual Conference brings togeth	er over 45,000 attende	es and rotates among t	he few cities that
can accommodate a conference of our si	ze.		<u> </u>
Name and location of hotel or other lodgi	ing facility:		
The Palazzo Hotel, 3325 S Las Vegas B	lvd, Las Vegas, NV 89°	1.09.	
Reason(s) for selecting hotel or other lod	ging facility:	<u> </u>	
	•		

21.	Describe how the daily expenses for lodging, meals, and other expenses provided to trip participants compares to the maximum per diem rates for official Federal Government travel:				
	The lodging rate is slightly higher than the per diem rate (by \$15 per night), and the meals rate is				
	comparable. This event is organized without regard to congressional participation and hotel is selected				
	for reasons listed in question 20.				
22.	Describe the type and class of transportation being provided. Indicate whether coach, business-class or first class transportation will be provided. If first-class fare is being provided, please explain why first-class travel is necessary:				
	Coach air and ground transportation.				
23.	I represent that the travel expenses that will be paid for or reimbursed to Senate invitees do not include expenditures for recreational activities, alcohol, or entertainment (other than entertainment provided to all attendees as an integral part of the event, as permissible under Senate Rule 35).				
24.	List any entertainment that will be provided to, paid for, or reimbursed to Senate invitees and explain why the entertainment is an integral part of the event:				
	None provided				
25.	I hereby certify that the information contained herein is true, complete and correct. (For trips involving more than one sponsor, you mu 1 signature page for each additional sponsor): Signature of Travel Sponsor:

Additional Information

Question 5. U.S. Senate Invitees:

- Brett Baker (Senate Finance Committee)
- Morgan Brand (Sen. Schumer)
- Andrew Burnett, Health Research and Policy Assistant (Senate HELP Committee)
- Jennifer DeAngelis (Sen. Whitehouse)
- Eric Dempsey (Senate Finance Committee)
- Will Dent (Sen. Isakson)
- Marvin Figueroa (Sen. Warner)
- Victoria Flood (Sen. Capito)
- Julia Frederick (Sen. Warren)
- Matt Gallivan (Sen. Cassidy)
- Colin Goldfinch, Senior Health Policy Adviser (Senate HELP Committee)
- Jordan Grossman (Sen. Klobuchar)
- Rita Habib (Sen. Bennett)
- Samantha Helton (Sen. Wicker)
- Elizabeth Henry, Legislative Assistant (Sen. Cochran)
- Virginia Heppner, Professional Staff Member (Senate HELP Committee)
- Will Holloway, Legislative Assistant (Sen. Hatch)
- Danielle Janowski (Sen. Thune)
- Lauren Jee (Sen, Cardin)
- Elizabeth Joseph (Sen. Cochran)
- Adam Lachman (Sen. King)
- Kathleen Laird (Sen. Baldwin)
- Aisling McDonough, Health Legislative Assistant (Sen. Schatz)
- Bobby McMillin, General Counsel (Senate HELP Committee)
- Brett Meeks, Health Counsel (Senate HELP Committee)
- Madeleine Pannell (Senate HELP Committee)
- Lauren Paulos (Sen. Hatch)
- Stuart Portman, Health Policy Adviser (Senate Finance Committee)
- Lorenzo Rubalcava (Sen. Stabenow)
- Kristi Thompson (Senate HELP Committee)
- Beth Vrabel (Senate Finance Committee)
- Arielle Woronoff, Senior Health Counsel (Senate Finance Committee)

Question 23. Note: No alcohol will be provided or served to Senate staffers, as noted on the agenda.

Congressional Staff Agenda

Location: Sands Expo Center, Las Vegas, NV March 5 – 9, 2018

Access Full Conference Information here: HIMSS18

All activities are at Sands Expo Center unless otherwise noted.

All times are Eastern Time (EST).

Note: All events and receptions listed on this agenda are open to all conference attendees

Sunday, March 4th, 2018

11:05am Flight arrives in Las Vegas

Note: Aisling McDonough is extending her trip by arriving Sunday morning and HIMSS will not be paying for any cost associated with the extension of her trip

Monday, March 5th, 2018

Monday, March 5 th , 2018		
8:00 AM -	Full Day Preconference Symposia and Workshops (ongoing for 8	
4:30PM	hours):	
Breakdown:	Business of Healthcare Symposium: Going from Good to Great in a	
	Value-Based World	
8:15-9:15am -	The transition from fee-for-service to pay-for-value payment models is one of	
education	the greatest financial challenges the U.S. healthcare system faces. Realizing	
session	the full potential of these arrangements requires a level of communication,	
	information sharing, and data integration never contemplated in our historical	
9:30-10:30am -	fee-for-service world. Explore how some of the most successful organizations	
education	are navigating these previously uncharted waters by reimagining their patient	
session	engagement strategies, contracted provider arrangements, and approach to	
	data analytics, as well as the legal issues that must be taken into	
10:45-11:45am	consideration when executing these new strategies.	
- education		
session	OR	
11:45am-	Innovation Symposium: Innovation as a Strategic Imperative	
12:45pm - lunch	Care delivery organizations are often slow to change, and this can impede our	
	ability to meet evolving consumer needs. Organizations that have embraced	
12:45-1:45pm -	innovation as a core part of their cultural fabric are more vibrant, enjoy better	
education	customer and employee satisfaction, and manage new challenges gracefully.	
session	However, there is not a "one-size-fits-all" approach to innovation. Explore the	
	many facets of innovation in healthcare organizations - including innovation	
2-3pm –	types, models and applications; examples of successful innovation programs;	
education	organizational abilities and readiness for change; and more.	
session		
	OR	
3:15-4:15 —	Interoperability and HIE Symposium: Facilitating Person-Centered	
education	Interoperability and HiE Symposium. Facilitating Ferson-Centered Interoperable HIE to Manage Complex Populations	
session	Patients' lives, the health and security of our nation's citizens, and the health	
	of the US economy are - in part - reliant on ensuring the right people have the	
 	right access to the right health information at the right time. While we have	
	I figure access to the right health intornation at the right time, the trans-	

made great strides over the past generation, seamless, secure, nationwide interoperable health information exchange continues to elude us. Although there have been major investments and policies designed to drive standards development, interoperability, and health information exchange, significant barriers and challenges exist. Explore how points of leverage in technology and policy can be used to exploit market-based solutions to this dilemma. A particular focus is current solutions to the requirements of serving complex patients in the context of population health management and new reimbursement models. Because semantic interoperability is not the norm, challenge today's proven solutions and frameworks, and explore cutting-edge ideas in interoperability that will transform the exchange of health information. Is the future of healthcare destined to be incremental or will innovation and economics drive a great leap forward? Take a closer look at the interaction of technologies with policies, payment reform, emerging standards, and use cases that are furthering our progress toward true healthcare transformation in an interoperable world.

OR

Coordinated and Connected Care Symposium: Tackling the Challenge of Connected and Coordinated Care

Today's healthcare ecosystem is embracing a collaborative, person-centric approach to care throughout all stages and aspects of life. Care teams increasingly incorporate formal and informal members from many organizations and include family members, friends and others from outside the healthcare system. This shared decision-making is increasingly information-driven and interdependent, and ensuring coordination is challenging. Discover strategies for identifying and tackling these challenges, including leadership roles, technical skills, and IT and management strategies.

OR

Long-Term and Post-Acute Care (LTPAC) Symposium: Digital Health in and with LTPAC Settings

Long-term and post-acute care (LTPAC) provider organizations have long played an important yet frequently overlooked role in the U.S. healthcare delivery system. Now, as LTPAC organizations are elevating in prominence in the current healthcare ecosystem via ACOs and population health initiatives, there is a renewed interest in ensuring they have a visible presence in digital health. Following the Certified Associate in Healthcare Information and Management Systems (CAHIMS) certification roadmap, explore issues that LTPAC organizations should consider in leveraging digital health technologies to support their internal and external clinical data needs, and how hospitals, consultants and vendors can best address the specific digital health concerns and challenges of LTPAC organizations.

Precision Medicine Symposium: Journey to the Summit Using Clinical and Business Intelligence

Precision medicine is a fast-evolving field of healthcare that is approaching the mainstream tipping point. Clinical and business intelligence (C&BI) is instrumental in transitioning precision medicine to routine care by delivering analytics, data interoperability and data sharing among the ecosystems' stakeholders (laboratories, health systems, pharma, EMR vendors, research and payers) to inform decision-making in the provider workflow. Explore the precision medicine journey to the summit using C&BI, including the current

	landscape, future vision, and stakeholder challenges and perspectives.
5:00 - 6:30 PM	HIMSS18 Opening Keynote Technology for a Healthier Future: Modernization, Machine Learning, and Moonshots with Eric Schmidt, Executive Chairman of Alphabet Inc. (parent company of Google
6:30 - 8:00 PM	HIMSS18 Opening Reception
	Come celebrate to kick off our conference! Network your way through an evening with live music, food, and friendly conversation. Connect with industry leaders and colleagues alike at this special event open to all registered HIMSS18 conference attendees. **No alcohol will be provided or served to Senate staff**
7:00 - 9:00 PM	HIMSS18 Public Policy Leaders Dinner
	Location: TBD
	Description: Join policy leaders within HIMSS, as well as state and federal officials, for dinner to discuss policy matters including the health IT policy, legislative, and regulatory landscape in Washington, DC and the states. **No alcohol will be provided or served to Senate staff**

Tuesday, March 6th, 2018

9:30 AM - 6:00 PM	HIMSS18 Exhibition Hall with live technology demonstrations, presentations, and sessions
(When not attending concurrent educational sessions or for non-scheduled time)	Description: Learn about cutting edge health information technology. Experience thousands of health IT products and services on the HIMSS18 exhibit floor. Features the Meaningful Use Experience — a special live demonstration area that lets the viewer experience proven, certified EHR solutions. Also experience firsthand the Social Media Center, HIMSS Interoperability Showcase, The Intelligent Hospital Pavilion and more.
9:30 AM - 6:00	Interoperability Showcase
(When not attending concurrent educational sessions or for non-scheduled time)	Description: Explore a health ecosystem where standards-based health IT enables individuals to securely access, contribute to and analyze their own health data. Learn how current health IT products in the market deliver standards-based interoperability and health information exchange with an interactive learning experience.
8:30 – 9:30 AM	Views from the Top – How CMS is Leveraging Information and Technology in Medicare and Medicaid CMS Administrator Seema Verma
	<u>Description:</u> Administrator Verma is excited to discuss her efforts to advance interoperability and patient ownership of healthcare data, to most effectively leverage the latest technologies for patients in Medicare and Medicaid
8:30 - 9:30 AM	Concurrent Education Sessions:
	Advancing Digital Health in Canada This session will share the Canadian experience to develop and implement a strategy to integrate clinical informatics competencies into the academic faculty curricula for Medicine, Nursing and Pharmacy. Canada has invested in the building of the electronic health record infrastructure since 2001, and in 2007, it was recognized that to build sustainable change in healthcare, the preparation of clinicians needed to be addressed as well. This award winning

10 year program began by establishing a governance and leadership structure for each faculty then building upon that to create a collaborative among all the faculties. In the course of developing discipline specific clinical informatics competencies, it was discovered that much of the content could be leveraged across the clinical faculties. A Peer to Peer learning approach was implemented, with Faculty Peer Leaders taking responsibility to disseminate the competencies into curriculum and into clinical practice.

OR

Managing Medical Device Cybersecurity Vulnerabilities

Medical device cybersecurity continues to evolve. Multiple initiatives are working to improve device cybersecurity, to include development of a Common Vulnerability Scoring System (CVSS) rubric to assess device vulnerability impact and severity; the use of Information Sharing and Analysis Organizations (ISAOs) to help broker medical device vulnerability management; maturing coordinated disclosure processes; device cybersecurity criteria development and testing; and table top exercises to validate vulnerability handling procedures. This session will characterize these initiatives, as well as the relevant FDA and community roles, in helping to realize safer, more secure device clinical operation and use.

OR

A Framework to Support Measure Development for Telehealth

Telehealth offers tremendous potential to transform the healthcare delivery system by overcoming geographical distance, enhancing access to care, and building efficiencies. The Health Resources and Services Administration (HRSA) defines telehealth as "the use of electronic information and telecommunications technologies to support and promote long-distance clinical healthcare, patient and professional health-related education, public health and health administration". The U.S. Department of Health and Human Services (HHS) called upon the National Quality Forum (NQF) to convene a multistakeholder Telehealth Committee to recommend various methods to measure the use of telehealth as a means of providing care. The Committee was charged to develop a measurement framework that identifies measures and measure concepts and serves as a conceptual foundation for new measures, where needed, to assess the quality of care provided using telehealth modalities.

OR

Beyond the Pilot: Value-Driven Innovation

Many institutions experience "death by 1000 pilots," where cutting-edge technologies are implemented for a few months in a few departments, but lasting changes in workflow and culture are never realized. MD Anderson's first Chief Innovation Officer will explore ways to overcome the proverbial "wall of no" and "we've tried that before" attitudes that stifle innovation. Attendees will learn how to scope problems appropriately, which stakeholders to engage at each step of the innovation process, and how to differentiate true pilots from long-term solutions.

9:30 - 10:30 AM

HIMSS Staff Led Tour of the HIMSS18 Exhibition Hall

<u>Description:</u> To help familiarize attendees with layout of Exhibition Hall and key specialty areas, including Interoperability Showcase, Cybersecurity Command Center, Connected Health Experience, and Intelligent Health Pavilion

10:00 **–** 11:00 AM

Concurrent Education Sessions:

Enabling a Stronger, More Skilled Global eHealth Workforce

Discover how you can become part of the ongoing transatlantic initiative that is making eHealth work! Find out how the EU*US eHealth Work Project has been collaborating over the span of 18 months to measure, inform, educate and advance health information technology, digital skills and interprofessional healthcare education on a global level. See the results of what the project has accomplished and hear how we will continue this important work on an ongoing basis through the HIMSS TIGER Initiative. Learn how you can become involved in this groundbreaking and innovative effort to empower the healthcare workforce with digital skills. Bring best practices, tools and resources developed through the project to your institutions. Hear how you and your organization can help educate and train staff, assist interdisciplinary professionals as they progress throughout their careers, and provide management and administration with valuable workforce development benefits now and in the future.

OR

Care Pathways and Data Analytics for Advancement of Healthcare
This session will discuss the intelligent automation and clinical workflow
optimization that has allowed for the precise execution of what we already
know to systematically marshal our people, processes and technologies
which have made a profound difference in how to approach improving clinical
and financial outcomes.

OR

Federal Health Community Forum Session

Government policymaking directly impacts healthcare transformation and health IT, and you need to know what to expect. Participate in the three focused sessions of the Federal Health Community Forum that are specifically designed for special audiences interested in discussing government health IT programs. Gain insight into key government health IT initiatives, plans, priorities, and opportunities.

OR

Office of the National Coordinator for Health IT (ONC) Session

The Office of the National Coordinator for Health IT (ONC) will be presenting on the work it is undertaking related to implementing the 21st Century Cures Act, including interoperability, information blocking, and the trusted exchange framework/common agreement as well as other critical issues in its portfolio related to standards, usability, and increasing health IT adoption and functionality.

OR

Optimizing Care Transitions Across the Continuum

Implementing a strategy to address transitions of care across a large integrated health network presents many challenges. Increased pressure to improve utilization rates along with new Transitional Care Management billing opportunities has incentivized health systems to find innovative, cost-efficient ways to ensure transitions occur safely and effectively. One large teaching hospital and health system prioritized a strategy to improve care provided to patients after being discharged. This session will discuss a two-fold approach to a cost-efficient model to address this strategy. First, a centralized

Transition of Care call center was developed employing Registered Nurses and Medical Assistants who place calls to patients post-discharge; this model works on behalf of the primary care providers (PCPs). Secondly, the workflow for this process was streamlined using various functions within the EHR allowing for an increase in staff productivity.

11:30 - 12:30 PM

Concurrent Education Sessions:

Centers for Medicare & Medicaid Services (CMS) Session

The Centers for Medicare & Medicaid Services (CMS) will be presenting on several critical topics in their sessions, including: the agency's quality and innovation work related to its health IT-related Medicare payment policies, including the Medicare Access and CHIP Reauthorization Act of 2015 (MACRA), Quality Payment Program (QPP), and the Medicaid funding opportunities that exist for providers as well as states in terms of interoperability and Medicaid modernization and modularization.

OR

The Impact of Smartphone Technology in Clinical Practice

This session will discuss study findings and demonstrate how implementing a smartphone solution into clinical practice significantly improved physician response times, increased efficiency and transformed care team communication.

OR

Virtual Reality Gets Real in Healthcare

Recent, real-world case studies in virtual reality (VR) hold promise for medical training as well as operational support. Organizations like the US Army, VA, medical schools, and private hospital systems are exploring new uses. VR is an umbrella term for other areas including augmented reality ("AR") and 3-D. VR and AR technology have advanced to the point where consumer facing immersive VR experiences are accessible at reasonable price points. So far, VR has gotten traction in healthcare mainly as a training and education device, but industry-wide it's a green field for innovation. We've only scratched the surface of VR's potential to disrupt healthcare delivery. New revenue, cost savings and quality gains can be captured from VR across multiple verticals—health system, provider, pharma, payer and consumer. VR can leverage techniques to weave itself into the fabric of healthcare delivery-gamification, social media, narrative, visioning, goal setting and rewards.

OR

Engaging and Empowering Patients: Redesigning Patient Care

This session will discuss how we transformed care coordination and the patient experience in our Maryland-based health system by implementing a patient engagement and care coordination platform supported by a fully enabled virtual care team. The program streamlined communication, collaboration and coordination among hospitalists, specialists and PCP's and implemented a well-defined patient engagement strategy. By sharing actionable health information, providing 24/7 access to virtual care teams and managing transitions of care, we achieved a 350% reduction in in-patient transfers, 100% completion of discharge follow ups within 48 hours, more than 50% reduction in readmission and 15% reduction in no-shows. Feedback indicates a vastly enhanced patient experience, improved quality of care and better outcomes. We will also discuss how remote patient monitoring using intelligent medical devices demonstrates significant potential to further these
